## Someone sent me a fax but it hasn't arrived.

Imported User Agent 3 - 2017-03-02 - 0 Comments - in Fax2Email

Your ISP may be experiencing network problems, or a sudden influx of email and as a result we may not be able to deliver the email as quickly as normal.

Ask your ISP to upgrade their mail servers, or choose an alternative ISP who have scaled their mail systems to handle the volume of mail they are receiving.
